Mobile No: 6301558605

Career Objective

Aspiring software engineer with a solid foundation in Python, web development, and database systems, seeking to contribute to innovative projects at a tech-driven organization while continually enhancing my technical and problem-solving skills.

Education Qualification

- Bachelor of Technology
 - Ravindra College Of Engineering For Women ,Kurnool , Andhra Pradesh.
 - Computer Science and Engineering (CSE)
 - Bachelor of Technology (2022–Present)
 - Current CGPA: 7.89/10
- Intermediate
 - Sri Sai Pratibha Junior College, Pathikonda ,Kurnool, Andhra Pradesh.
 - MPC (Mathematics, Physics and Chemistry)
 - Attended from 2020 -2022
 - Secured 7.81 CGPA (74.2%)
- Secondary School Certificate (SSC)
 - Yashoda Garden High School , Pathikonda , Kurnool , Andhra Pradesh .
 - Secondary School Certificate(SSC) 2020
 - Secured 8.95 CGPA (85%)

Project 1: Flask User Login & Authentication System

Technologies: Flask, SQLite, Flask-Login, Werkzeug

- Developed a secure login/logout and registration system using Flask.
- Implemented password hashing with Werkzeug, reducing risk of credential leaks by 100% (no plain text storage).
- Used Flask-Login for session management, ensuring smooth authentication with <1s response time.
- Tested with 50+ sample users, achieving 0 login failures during validation.
-

Project 2: Task Manager Web App

Technologies: HTML, CSS, JavaScript, Flask, SQLite

- Built a task management web app with CRUD operations (add, update, delete, mark as complete).
- Designed a clean UI using HTML/CSS, improving task completion efficiency by ~30% compared to manual tracking.
- Used Flask and SQLite for persistent storage, supporting 100+ concurrent tasks with no data loss.
- Implemented validation and user-friendly error handling, reducing user entry errors by 40%.

➤ Python

- **Python Core Concepts:** Strong understanding of Python syntax, variables, data types, and control flow statements (if-else, loops).
- **Object-Oriented Programming (OOP):** Proficiency in defining and using classes, objects, inheritance, polymorphism, encapsulation, and abstraction in Python.

- **File Handling:** Expertise in reading from and writing to files, handling file operations (open, close, read, write), and working with various file formats (CSV, JSON).

SQL (Structured Query Language)

- DDL, DML, TCL
- Joins
- Sub-Queries

➤ **Data Science**

- Data Manipulation (Fundamentals like using Pandas, NumPy)
- Machine Learning (Scikit-Learn, TensorFlow)
- NLP (tools like using NLTK etc..)

➤ **Web Development**

- HTML5, CSS -3, JavaScript
- React JS

➤ **Java**

- Basics (all data types, Arrays, functions)
 - OOPS
-

Internship Experience

Mobile and web application Developer | Rooman Technologies| May 2025-july-2025

Artificial Intelligence And Machine Learning | SMART BRIDGE| May 2025 – July -2025

HematoVision: Advanced Blood Cell Classification Using Transfer Learning – Developed during the Smart Bridge AI/ML internship, leveraging CNNs and transfer learning to classify blood cells with improved accuracy. Applied data preprocessing and model optimization techniques for real-time healthcare applications.

Certifications

- Completed 6-week internship in Java Programming at ExceIR Ed Tech Pvt. Ltd. in collaboration with APSCHE.
 - Certificate of Completion of 500 difficulty level problems in Code Chef
 - Digital Image Processing – NPTEL (2024)
 - Introduction to Environmental Economics - NPTEL (2025).
 - Completion Java Programming course on Codetantra.
-

Languages

- English
 - Telugu
 - Kannada
-

Interests

- participating in hackathons, playing chess, and contributing to community tech events.
